

Quality, Safety and Value

John C. Wadsworth
CEO

At Piping & Equipment, our customers expect a high quality of work and value on every project. Each time, we meet or exceed their expectations using our extensive experience and expertise. Our employees are professional, and our safety record is among the best in the industry. Our Mission and Values are our guides for providing quality to our customers, while maintaining a safety-first environment.

Our Mission

To be the contractor of choice by providing quality, safety, and value to our customers. We provide experienced, reliable, and knowledgeable employees who have passion to provide a superior customer experience.

Our Mission Statement provides four benefits:

- Forming the basis of employees efforts
- Providing a basis for strategies and business decisions
- Creating teamwork and cohesion
- Encouraging the company to grow and evolve

Our Mission drives the strategy that we employ every day. We are continuously working on our strategy to accomplish our goals. Our employees support each other and work together, focusing on the Mission of the company. In turn, they contribute value to the company and our customers. Creating benefits for Piping & Equipment and our customers. We are a service company; providing professional services to each of our customers.

Quality and Safety

The first priority at Piping & Equipment is Quality and Safety. We maintain a highly-trained staff of Quality Control and Safety professionals. Our Quality Control program is integrated with yours. Our QC Director works hand-in-hand with your personnel to meet both code and your specific requirements.

We're dedicated to maintaining safe working environments through safety management. Our safety professionals work tirelessly to provide customers with injury-free projects.

Our commitment to quality and safety has been proven through our long track record of on-time completion of projects without a single injury.

Our Values

One of Piping & Equipment's key values is our customers. We know they are the reason we are in business. We support our customers, and they value our performance, products and services. Customers make decisions based on who they trust most to meet their needs. We believe our long list of satisfied customers proves we can meet and exceed your needs as well.

CUSTOMERS: Loyal customers who value our performance, products, and services are the foundation of our business.

RESPECT: We treat everyone with mutual respect and dignity. We respect our customers, our employees, and the relationships

that are developed.

TRUST: We keep our commitments to our customers and employees.

INTEGRITY: We are committed to always doing the right thing.

HONESTY: We are always open with our communication. What we say is the truth. We are committed to working with others who value honesty.

RESPONSIBILITY: We accept the consequences of our decisions and actions. We set high standards and accept challenges because we expect high performance from ourselves.

PEOPLE: Being able to attract the best people, developing, retaining, and providing opportunities result in superior customer experiences. Providing opportunities to increase employee knowledge, skills, and responsibilities provides value to our customers.

SAFETY: Safety is the responsibility of each person. Performing our work safely is a requirement and an expectation of our customers.

TEAMWORK: We value people who work together to achieve results. People who share their knowledge and expertise with others improve our performance.

QUALITY: Our products and services are provided to customers with zero defects.

Each time we live up to our values, customers select us to provide their mechanical construction needs.
