

Shop Fabrication

Piping & Equipment's Fabrication Shop has now been in operation for seventy years. Our 35,000 sq. ft. shop handling unloading raw materials for fabrication to loading completed units for shipment. We fabricate the structural supports, process piping, process equipment, pressure vessels, process skids, instrument control panels and any specialized equipment. All with the quality and results you expect from us.

Equipment

- Two - five ton overhead cranes
- Four - one ton overhead cranes
- Six - two ton jib cranes
- 30 inch HEM hydraulic automated saw
- ESAB sub arc robotic welder

Specializing In

- Skid fabrication
- Pipe fabrication
- Pressure vessels
- Dual containment systems
- Instrumentation
- Flare systems
- Structural steel
- Platforms
- AutoCAD, 3D modeling

ASME Code Stamps

S, U, PP & R

ASME Section IX & AWS Structural

Serving

- Rail & truck loading facilities
- Petrochemical refineries
- Chemical processing plants
- Gas processing plants
- Pipeline terminals
- Edible oils refineries
